

Wainwright Boys Win Decision Over Viking

RETURN GAME TO BE PLAYED
HERE ON SUNDAY, AUG. 4th

Wainwright broke their losing streak on Sunday last by noting out Viking in a close decision, the score being 6-5. With the weather man threatening a downpour any minute, and did hold up the game for a few minutes in the third inning, a very small crowd witnessed the boys show their stuff. Wainwright fielded two new men, Johnson at second and Kent Babb in centre field, both local men, and both seemed to fit in quite nicely, each getting a hit. Neither player received a fielding chance during the entire game.

Sam Roberts in Good Form

Sam Roberts worked on the mound for the local boys with V. Coffel on the receiving end. Out of the twenty-seven put outs during the game, Sam struck out twenty, walked seven, allowed three hits and had five runs scored against him. McLaren and Stambaugh made up the battery for Viking, Stambaugh getting eleven

strikes out, touched for eight hits, issued five passes to first and had six runs scored against him.

Wainwright Scores First

Wainwright scored first in the second inning when Phil Stuart clouted out a hit for two bases, stole third and scored on a put-out from second to first. They came very close to scoring again in the fourth frame but Johnson was caught out at the plate after getting on base with a two-base hit. The fifth inning went scoreless but E. Lane scored for Wainwright in the sixth, reaching first with a single.

The seventh inning saw the Viking batsmen score two hits, which along with a couple of passed balls, netted them two runs, making the score 2-2. Jones, Walker, doing the hitting, the former getting a single and the latter a 3-base hit in left field.

Wainwright came right back in their turn to bat in the lucky seventh and ran in three runs. Kent Babb the first man up struck out. Sam Roberts then received a walk. Ed Ganderton, who was covering the territory around 1st base for the locals, hit to short, forcing Roberts out at second. Stambaugh then walked three men in a row, scoring Ganderton. Johnson the next batter on the list lifted a single just over second and scored R. Ganderton and V. Coffel.

Not to be outdone the Viking ball tossers stepped out and evened the count at 5-5 in the first of the eighth inning. Striking out the first man to face him, Sam then walked.

(Continued on page four)

Start on Graveling Of Jasper Highway

Work of graveling the 45.56 miles of the Jasper highway remaining to complete an all-weather route to the great national park, will commence within 10 days and will be finished not later than October 31st, provincial government public works department officials announced on Friday.

The contract for the graveling has been awarded to Fitzgerald and Starky of Edmonton, the low tender of seven submitted. The figure of the successful bid was \$50,313.

Honors Awarded to "Wainwright Star"

IN THIRD IN ALL CANADA IN ITS CLASS

TORONTO—Selected as the outstanding weekly newspaper in Canada, the Northern News of Kirkland Lake, Ont., the Era of Newmarket, Ont., and the Gazette of Grand Forks, B.C., were awarded trophies by the Canadian Weekly Newspapers association at its 10th annual convention here Tuesday.

S. N. Wynn of Yorkton, Sask., presented the Mason trophy on behalf of W. Mason, Sudbury, to Charles W. Mason, editor of the Northern News. The contest was open to weeklies or semi-weeklies with a circulation of 2,000 or over. The Barrie Examiner and the Standard-Freeholder, Cornwall, were second and third.

The Charles Clark trophy for weeklies with a circulation of 2,000 down to 1,000, was awarded to the Wainwright Star of Wainwright, Alberta, placed second and third in this contest.

In view of the fact that around 700 weeklies are published in Canada all eligible for these competitions, "The Star" is pleased to "take its bow" and say "thanks" for the many congratulations received for this win.

Returning Officer Opens Office Here

Mr. W. J. Reynolds, of Heath, who is the returning officer for the Wainwright constituency, has opened an advance office in the Banning block on Main street, and anyone wishing information on their qualifications to vote in the forthcoming election on August 22nd, may obtain same from that office.

Nominating Day is Monday, Aug. 12th, and Mr. Reynolds will officially announce the result of the poll on the third day of September.

An advance poll is to be held for those who will be necessarily absent from this constituency on election day, this being held on the afternoons and evenings of August 15-16-17.

DOUGLAS GROUP NAME FEDERAL CANDIDATES

CALGARY—Assertedly a non-political organization and opposed to running candidates in elections, the Alberta Provincial of the Douglas Social Credit Association was in the federal field in Alberta today following announcement that the organization would enter a candidate in every federal constituency in Alberta.

School Examination Center at Wainwright

Supplemental examinations in the units of the third and fourth year high school courses will be held in Wainwright commencing on August 22nd and continuing to August 30th in the Wainwright public school.

Applications to write any of these examinations must be received at the office of the High School and University Matriculation Examinations Board, department of education, Edmonton, by August 14th.

Forms for this purpose will be supplied on request.

Inspector L. Good, Wainwright, will be in charge of the examinations at this point.

P.E.I. Makes History In Prov. Elections

The final party standing in Tuesday's Prince Edward Island election was:

Liberals elected	30
Conservatives elected	0
Total	30

Following is the summary of gains and losses by party in the Prince Edward Island election:

GAINS—	
Liberal	18
Conservative	0

LOSSES—	
Conservative	18
Liberal	0

Liberal sides flooded Prince Edward Island last Tuesday, defeating every Conservative candidate in an election turn-over perhaps unprecedented in Canadian political history.

Premier-elect Walter M. Lea will have no opposition in the house he is about to lead.

Premier W. J. MacMillan and all seven of his cabinet ministers were swept from office in the debacle which followed by one month a sweeping Liberal victory in the neighboring province of New Brunswick.

Voters' Lists to Be Ready August 15th

OTTAWA—Voters' lists for the federal election will be completed August 15th, it was announced Tuesday by Col. John Thompson, Dominion franchise commissioner. Following the recent revision they are being printed at the government bureau at the rate of 10 ridings daily, and the lists will show 6,000,000 men and women eligible to vote, an increase of 250,000 over the basic lists in Canada where a basic list has been used.

Formerly a list of voters was prepared for each general election. Under the Dominion franchise act passed a year ago, however, a basic list for future elections was prepared, which is revised periodically.

Getting Ready For Big Annual Fair

Arrangements are going ahead for the big annual fair to be held by the Wainwright Agricultural society on Friday and Saturday of next week, August 9th and 10th, and in this connection we would remind our readers to get their entry forms filled in and handed to Secretary Bill Stuart without delay.

Not the least of the attractions of this year's fair will be the big double header baseball games between the Edmonton Shasta-Royals and the local ball-tossers on the second day. These two games will be handled by Lefty Ducey, the renowned Alberta umpire. \$100 hangs high for the winners.

For the first day, intermediate baseball will be played in tourney, and a ladies softball tournament will occupy both Friday and Saturday, good prizes being offered for both these events.

The gates will open at eight a.m. on Friday morning for stage exhibits and judging will commence sharp at ten o'clock on Saturday morning.

The Crescent Amusement Co. will have a number of rides and side-shows to occupy the midway for the whole fair, and this no doubt will attract a large crowd of fun-makers. Entries in the live stock and agricultural classes promise to outnumber those of former years, and given good weather, 1935 fair should prove a record breaker for results.

Admission to the fair grounds will be fifty cents for adults, while high school pupils will be allowed in at half-price. All public school children will be admitted free to the grounds, as well as autos and vehicles. It should be pointed out that the directorate of the fair will not be held responsible for any accidents.

Fired by Lightning Home is Destroyed

Last Wednesday night, near midnight, during the height of the electrical storm which visited this district, lightning struck the farm home of Mr. A. Jerram, south of town, starting a fire which completely destroyed the house and most of the contents, and forced the family to seek shelter from the heavy rains in some outbuildings. Mr. Jerram with his wife and four children were all in the building when it was struck but very fortunately no one of them was injured in any way. Some insurance was carried.

Dominion Election May Come in Aug.

In political circles over the week-end a belief took form that the election will come earlier than expected. Instead of fixing the date late in September, it is now believed that the government will choose either August 26th or Sept. 3rd. The choice it is understood, will depend on the progress made in printing the revised voters' lists.

Political headquarters at Ottawa have notified the provincial offices of the change, and it is believed election activity will be speeded up. The campaign of the leaders will begin the first week in August, so that the tours may be the briefest on record. Mr. King will probably launch his campaign at Kingston, August 3 or 7, and Mr. Bennett will take to the hustings about the same time.

RECORD LENGTH HOLIDAY TRAIN

VANCOUVER—The Canadian National Railways depot recently was the scene of bustling activity as one of the longest trains from the east this year pulled into Vancouver with seventeen cars full of holiday makers. The visitors were all from prairie points as far as Winnipeg, making an excursion to Vancouver under the auspices of the Gladious society. They are staying here for a week and a half before returning home. Many visited Victoria, which is sharing the holiday-makers with Vancouver and New Westminster.

O. C. Masterpiece Coming For Fair

As a fitting picture attraction for the annual fair, the Elite theatre have booked that wonderful Old Country masterpiece "David Copperfield."

This masterful presentation of Dickens' famous book, will be given in its entirety, showing the life of the titular character through his varied and struggling lifetime. The playbill just shines with photoplay stars, and no doubt will attract full crowds at the local playhouse for the end of Fair week. Popular prices will prevail, too!

SEPARATE GRADING GARNET WHEAT NOW

WINNIPEG—Effective August 1 next, Garnet wheat will be marketed as a separate grade, E. B. Ramsay, chairman of the board of grain commissioners, announced here Friday.

Its price, he said, will be determined by ordinary market conditions. The wheat will be marketed through existing channels stated Mr. Ramsay.

Democracy & Press Prove Inseparable

TORONTO—"Democracy and the press are inseparably bound together," B. K. Sandwell, editor of Toronto Saturday Night, told delegates to the Canadian Weekly Newspapers' association convention here Friday.

"The press could not exist without democracy—democracy could not exist without the press," he said.

Circulation of newspapers in Italy and Germany had dwindled to half of its former figure since the application of the "muzzle" by dictators, he said as proof the public of those countries had ceased to look upon the press as a vehicle of thought and a source of information.

Enormous Taxation For Auto Vehicles

Thirteen years ago, Alberta collected \$685,181 from registration fees on motor vehicles. Last year, the amount had increased to \$1,488,148,144 but the peak of collections was reached in 1930, when \$1,889,790 was collected from this source alone.

In addition to registration fees, gasoline taxation came into effect in the same year (1922), with a tax of two cents per gallon, when \$185,118 was collected. The tax was raised to five cents per gallon in 1929 when collections swelled to \$2,148,413. A further increase occurred in 1933 and the province obtained six cents per gallon while the present rate, introduced in April of this year, is seven cents per gallon.

Last year, with a tax of six cents per gallon \$2,659,669 was poured in to the provincial treasury by motorists on their purchases of gasoline and, in the space of thirteen years, \$17,302,089 has been collected from this form of taxation. Aggregate collections for registration fees (\$16,726,523) and gas tax (\$17,302,089) have amounted to \$34,028,612 since 1922.

New Auto Camp Sought For Town

It was certainly not a representative meeting of business and professional men which gathered in the Town hall last week to discuss ways and means of establishing a new auto camp in town, but the sparsity

Vale M.D. to Allow 7 p.c. Tax Discount

PASS TAX CONSOLIDATION
BY-LAW

A regular meeting of the Council of the Municipal District of Vale was held in the Municipal Office, on Saturday, July 20th, all councillors being present with Reeve E. B. Wahlstrom presiding.

Moved by Treffry—That minutes of regular meeting, held on June 10th be adopted as read.—C.U.

Moved by Wahlstrom—That Councillors Scott and Treffry, be appointed a commission to inspect and take any necessary action in connection with road between sections 2 and 3-41-44.—C.U.

Moved by Valleau—That capital grant of \$1120.00 be accepted by this district on terms embodied in circular letter from the deputy minister of public works.—C.U.

Moved by Castle—That a distribution of the capital grant be made as follows: Div. 1, \$330; Div. 3, \$330; Div. 4, \$130; Div. 5, \$330.—C.U.

Moved by Scott—That the following expenditures for the respective divisions be authorized for public works (form B): Div. 1, \$1752; Div. 2, \$236; Div. 3, \$1670; Div. 4, \$510; Div. 5, \$1255.—C.U.

Moved by Wahlstrom—That appeal of The Hudson's Bay Co. against the 1935 Wild Lands Assessment be allowed on the W. 12-8-43-44 and S.E. 26-43-44.—C.U.

Moved by Castle—That granary and stable on S.W. 21-41-54 be sold to Thos. Styler for the sum of \$2250.—C.U.

Moved by Valleau—That district

offer to lease to H. J. Ordway, for the sum of \$10.00 the S.W. 28-43-64.—C.U.

Moved by Castle—That notice of admittance of Donald Culp and Grant McCaugherty, to Wainwright hospital, be received and filed.

Moved by Wahlstrom—That the following correspondence, letters dated June 18th and July 12th, from the Minister of the Interior, Ottawa, concerning proposed new road through Buffalo park be tabled and that Secretary again take this matter up with the department.—C.U.

Moved by Treffry—That application for old age pension of Albert Culp, be recommended by this district in full.—C.U.

Moved by Valleau—That petition relative to the elimination of Div. 2, be ordered filed.—C.U.

Moved by Wahlstrom—That the following correspondence be ordered filed: Department of Agriculture, re Weed Control; Old Age Pension Department, re M. C. Tillotson; Mrs. Paul Paulsguard, re rental of buildings.—C.U.

(Continued on page five)

Revival Mission Opened at Theatre

On Monday evening last, the revival mission opened at the Elite theatre, with Rev. Chas. Neighbor as chief speaker.

Quite a nice attendance was on hand for the night, and the services will continue for the next two weeks with extra afternoon services on Sunday, excepting on Saturday evening, during that period.

The services will be found to be bright and attractive and all are invited to attend. Each evening at 7.30 p.m.

Gas Franchise Agreement Signed

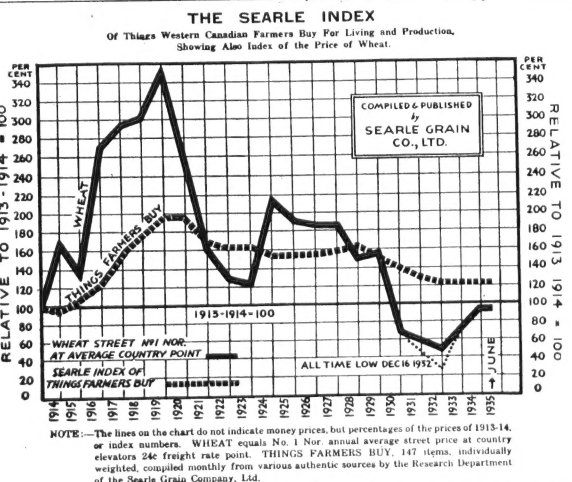

Dealing with a matter which has certainly hung fire for a considerable period, Mayor Middlemas and Councillor Link were in the city last week, where in company with a solicitor they presented to the Utilities Board, the agreement for the extension of the gas franchise between the Town and the Gas Company until the end of 1936, during which extended period (the dating of the original franchise expired on July 22nd, 1935) all the conditions of the original franchise will prevail.

The document as presented has been before the Council and has been unconditionally concurred in, and as it met the approval of the members of the Public Utilities Board of the province with regard to safe-guarding the interests of the ratepayers, it has now been duly and properly signed and sealed by the parties thereto.

It will now be quite in order for interested parties to get busy with any project they may wish to formulate with regard to what may happen at the end of the extension period, a renewal of the franchise, or if so, on what terms and prices; a formation of a new company; an agitation for lower rates; a municipal-owned system; or any other of a dozen schemes which may be formulated for the supply of natural gas to the Town of Wainwright for the next ten or twenty-year period. It will be something for next year's Town Council to work on, anyway!

Putting Employment On the Up Grade

WINNIPEG—To officially celebrate the re-opening of the Manitoba Paper Company's plant at Pine Falls, Man., Winnipeg's business and commercial life visited the plant recently. Headed by Hon. W. J. Tupper, Lieutenant-Governor of Manitoba, J. S. McDermid, minister of natural resources, and John Queen, Mayor of Winnipeg, a party of close to two hundred made the trip on a special Canadian National Railways train. The day was spent inspecting the plant. Already more than two hundred men have been returned to steady work with the re-opening of the plant.

The above graph shows the fluctuations according to the Searle index. All fluctuations are based in terms of a percentage as of 1913-14 figures. It will be noted that the price of wheat today is 93 per cent of the 1913-14 price, which means that it is now 7 per cent lower than then, and

TODAY & TOMORROW

By
Frank Parker
Stockbridge

PRAYER a boy's life. Almost the whole population of a little New England village met in the old white-painted church one night last week to pray for the life of a little boy. Our doctor's seven-year-old son had been five weeks in the hospital at the county seat. Word had come up that the specialists had given up hope.

"Can't anything be done?" someone asked. "The child is in the hands of God," was all the doctor could say. "Then let's try God," said Mr. White, the minister.

Ora Dubois, the telephone exchange, called up everybody on the farmers' lines. "Come to the church tonight, to pray for Billy Pedding!" By word of mouth the call ran through the village. That night the church was crowded, and no more fervent prayers ever went to the Throne of Grace than rose up from that little country town.

Next morning good news came from the hospital. The boys seemed better. Next day they said they had a chance. The third day, a decided improvement. Another day—out of danger!

Do our New England folk still believe in the power of prayer? We hear much of the decline of the ancient faith of our fathers. It is still a living force, up here in Berkshire.

FAITH today. I know a surprisingly large number of people who tell me that they have found courage to face the economic disasters that have befallen them, and peace of mind such as they have never known in prosperous times, through a renewal of their faith in Divine Providence. Not only are the congregations larger in

the churches of all sects, but non-sectarian groups and clubs are drawing greater numbers to hear the simple Gospel message.

I saw hundreds turned away for lack of room, not long ago, at one of the tri-weekly religious meetings in the grand ballroom of one of New York's largest hotels. I know one woman who draws hundreds to hear her "inspirational" talks on Friday afternoons.

These people are seeking help to adjust their minds and spirits to the realities of life. Many of them are succeeding; they are the only really happy people I know.

YOUTH experience. Whenever I hear someone declaring that there is one sure way to get everything right, my first inquiry is: "How old are you?" The sure way is that he has discovered the panacea, the younger he is likely to turn out to be.

As one gets older, he is not so sure that there is one sure way to get everything right, nor that it would be the better for being "done over," even if it were possible.

I am constantly being reminded of a remark of Dr. Benjamin Jowett, the famous "Master of Balliol" to one of his graduating classes at Oxford.

"Even the youngest of you," he said, "is not infallible!"

POLITICS this fall. The Presidential Campaign of 1936 is already under way. The preliminary skirmishes will be at the "odd-year" elections this fall. On the outcome of such village, town and county elections the national elections may possibly hinge next year. All other things being equal, the party that has the best and most far-reaching organization stands the better chance of victory. Party organization must begin at the grass-roots.

The party with the most men in local public offices has the strongest organization.

The odds are always with the "ins." It always takes a pretty decent and widespread change in public sentiment to oust whichever party happens to control the pots.

THE PROPER CARE OF YOUR AUTOMOBILE

Refinishing the Top

THE danger of neglecting the closed car top was explained in the previous article. All of this can be avoided by starting care of the top when the car is new. Then, and that is necessary, is to rub in a little high grade wax dressing every two or three months. The wax filters out the ultra-violet rays of the sun and prevents weathering.

Even though this care is not taken the formation of cracks can be prevented. When the original finish has lost its film strength, the top should be re-finished with a properly formulated top dressing, which renews the protection. It is unwise to apply top dressing before the check marks appear. The

Next: "Care of Top Mountings"

QUALITY or price. Mario Raspuzzi was cutting the hay on my lower meadow the other day, when the tongue of the mower broke off. The oak shaft had rolled at the bolt-hole. I called up the hardware store in Great Barrington, eight miles away, and found they had a tongue in stock for that make of machine, already bored for the bolts.

When Mario brought back the new tongue, however, instead of being oak—or ash, which is better—it proved to be just a stick of Oregon pine.

"That's all they're making 'em of now," the dealer explained, when I "squawked" over the telephone. "Quality doesn't count any more—only price. Farmers want cheap goods—and I'm telling you, they're getting 'em! That tongue'll last you two—three years, anyway."

The old one had seen 20 years of service. I've been wondering ever since, whether most of the goods we buy these days aren't in the same class as that new mower-tongue—made to sell cheap and wear out quickly.

SLAT'S DIARY

Friday—Lida Cross says her bend is the stinger fella she ever knew. The one time he gives her any money willing is when she says she wants car fair to go home to her mother.

Saturday—Mrs. G. Gillem is moving in to her new house up on the hill to day and she is kinda wirry about it becuz she told ma and emmy that she was a trade to die on acct. mebbey she wouldn't be satisfied in Heaven.

Sunday—Ole man Tindler cot 1 and Jake and Bliffers taking sum of his apples this afternoon and when he gets in he set me how I cud explain me taking sum of his apples and I replied and sed I thot he was away from home at the time.

Monday—Dude Macey says he is freen trouling with un rellibel boot-leggers now and for ever. he bot sum corn whisky last month and he says his ft. aint no better than they was before he begun using the corn whiskey.

Tuesday—Pa is kinda imbarressed on acct. of a pic he printed in the noose paper where he works at. The piece sed that Mrs. Gabe Moss witch framally lived here announced the berth of a pair of 2 twins decently.

Wednesday—Ant Emmy had to walk down town today to take the doctors bill back to him witch he sed to her last Friday becuz it sed on the envelop to return in 5 days to doctor crumble.

Thursday—Pa went to Ike Newlin today and told him that he herd he had joined church and he thot mebbey he wood like to settle a old bill for four 3 and a half. Ike sed he did join the church but he wasent a going to mix religion and business.

He who plants seeds expecting a harvest, who tells others in difficulty to "have patience, work hard in things will right themselves" and who each night lays his head on his pillow without fear or remorse has considerable religion whether he admits it or not.

The Canada Year Book 1934-1935

The publication of the 1934-5 edition of the Canada Year Book is announced by the general statistics branch of the Dominion Bureau of Statistics. The Canada Year Book is the official statistical annual of the country and contains a thoroughly up-to-date account of the natural resources of the Dominion and their development, the history of country, its institutions, its geography, the different branches of production, trade, transportation, finance, education, etc., in brief, a comprehensive study within the limits of a single volume of the social and economic condition of the Dominion. This new edition has been thoroughly revised throughout and includes in all its chapters the latest information available up to the date of going to press.

The 1934-5 Canada Year Book extends to over 1,250 pages, dealing with every phase of the national life and more especially with those susceptible of statistical measurement. Attention may be specially directed to the statistical summary of the progress of Canada included in the introductory matter and giving a picture in figures of the remarkable progress which the country has made since the first census of the Dominion was taken in 1871, sixty-four years ago.

The volume is illustrated by many maps and diagrams and the latest available data are everywhere included. Immigration and trade statistics for the fiscal year 1934-35 and dairying statistics, which it was not possible to include in Chapter VIII when this was being printed, will be found in the Appendices.

Owing to the urgent need for economy in the distribution of Government publications, it has become necessary to make a charge to all individuals receiving the Canada Year Book. Persons requiring the Year Book may obtain it from the King's Printer, Ottawa, as long as the supply lasts, at the price of \$1.50, which covers merely the cost of the paper, printing and binding. By a special concession, ministers of religion, board students and school teachers may obtain at the nominal price of 50 cents each.

The Woman's Angle

Half the deaths that now occur in childbirth are preventable, according to Mrs. John Sloane, vice president of New York's Maternity Center. The statement is based on statistics by the Federal Children's Bureau in fifteen states and by other qualified organizations. The first rules for the expectant mother: see a competent doctor every three or four weeks for checks of blood pressure, temperature and pulse. Consult him at once in case of discomfort.

Summer days, when you feel like eating nothing but cold meats, are hard on your whole system if you give in to that inclination. At least one meal of the day, preferably dinner, should include one hot course. Let it be a well-cooked portion of meat or fish with a hot vegetable to go with it. Without this one substantial meal, you and your complexion are likely to suffer.

A filling summer salad suggestion: flaked crabmeat and cucumber, may-

onnaise and a little Worcestershire sauce. Mix the crabmeat with the seeds of the cucumbers after slicing them lengthwise and scraping out the seed trough. Heap the crab mixture in the cucumber hollows and arrange on a bed of lettuce.

Crabmeat delight: Beat one egg and add to two cups mashed, cooked summer squash, a half-cup flour and a half teaspoon baking powder, beat in a can of flaked crabmeat, drop from large spoon on a hot buttered griddle and cook brown on sides.

One of the coolest outfits for summer motoring consists of a three piece play outfit of shorts with attached halter top and a separate dress, one piece, which buttons down the front. Hundreds of comfort-minded women are wearing them this summer for motoring, unbuckling the dress when it's sizzling hot.

A little more formal, and almost as comfortable, is the two piece dress of loosely woven, natural colored linen. It's porous, cool and uncrushable.

By Highway Patrols Check Recklessness

Speeding drivers on Alberta highways, always a menace to lives and property, will be checked up, if a move initiated by the Alberta Motor Association is heeded by the authorities.

The need of highway patrols is being advocated by the A.M.A. With a proper force of this kind, ready at any and all times to check the reckless driver, serious accidents on the highways of this province should be reduced to a minimum.

While interested in the rights of motorists at all times, the motor association has no brief at all for the reckless, law-breaking driver. He is a deadly menace, allowed too long to wreak havoc and destruction with mained or dying to be found in his wake.

Only in recent weeks, reports of accidents in which careful drivers have apparently been the victims of reckless motorists have filled the front pages of daily newspapers. The conditions have become alarming.

Now the A.M.A. feels that the time has arrived for the authority to place patrols on the highways, charged with the duty of acting promptly and effectively to curb reckless driving. Severe measures are necessary and if taken soon, will mean the saving of lives.

Not only the driver on the main highways but also on secondary and district roads are subject to the menace that has taken such a toll of life in this province.

The results of questions as revealed by 11,627,765 cast votes are as follows, according to Viscount Cecil's announcement issued at Albert Hall, London, last week:

"Are you in favor of an all-round reduction of armaments by international agreement? Yes, 10,470,489; no, 862,775; doubtful, 10,062; abstentions, 213,839."

"Should Britain remain a member of the League? Yes, 11,090,387; no, 355,883; doubtful, 10,470; abstentions, 102,425."

Viscount Cecil expressed hopes that Parliament and the Cabinet will keep in mind the wishes of the people especially in view of the fact that a general election is near at hand.

HEART AND MENTAL STRAIN

Some men endure mental strain and worry better than others; but, it still remains a fact that the over-taxed brain, in any man, affords one of the most certain routes to "death from a heart attack."

"The case of former President Wilson may be cited. He was a brilliant mentality which was worked to more than capacity limit. I never have known of a man who endured greater strain, till the collapse and the crash. His circulation gave way to cerebral hemorrhage. The strain was the real cause of death."

Then Warren Harding, A man not fitted for bearing heavy mental burden, rather a plain, honest little fellow, capable within certain limits. The big fellows did his figuring, while he wondered what it was all about. Sensing catastrophe he announced, "I do not choose to run." Self-preservation warned—he heeded the message, maybe not knowing exactly why. At least he never explained. His heart, it was—and the end.

I could name many others, if space permitted, where men simply strained themselves into the most certain of deaths from heart disease. You men keep on doing it. My object in this letter is to urge YOU to avoid worrying over affairs that you cannot alter to suit yourself.

An old farmer near me has lived to 105; I never knew him to worry over anything.

Speaking about politics, the more we see of it the more confused we become.

Experimental Farms News

HEALTH FROM THE GARDEN

The average garden supplies vegetables in abundance, perfectly fresh through the summer months, and also many which are easily stored either raw or canned for winter use.

Comparatively few persons eat sufficient vegetables. Minerals such as iron, calcium, phosphorus, iodine, sodium which neutralize the acid condition of the blood, are found in proper combination as nature provides them in vegetables. Spinach, chard, lettuce, celery, tomatoes, carrots, cabbage, string beans, beets, parsnips, potatoes, radishes, onions, cucumbers, asparagus, turnips, peas and cauliflower all have varying amounts of available mineral matter. Leaf and stem vegetables are richer in calcium. Green vegetables are best sources of iron.

Vitamins essential to health, are necessary for growth and resistance from disease. Different vitamins are found in various foods. Vegetables usually served raw, such as lettuce, cabbage and tomatoes are valuable sources while smaller amounts are present in all others.

Starch and sugar are found in potatoes, parsnips, beets, carrots, corn, peas and beans, and supply fuel for body heat and energy. Legumes (ripe peas, beans and lentils) contain nitrogen and are used for tissue building. Another important function of vegetables is to supply fibrous material which is not digested, thus providing bulk or roughage and aiding elimination.

Points to be considered in cooking vegetables are preservation of color, flavor and nutrients. Most vegetables are best cooked in the smallest amount of water which can be used without burning the vegetables or they may be steamed. Have the water boiling when vegetable is put in the pot. Keep it boiling, not simmering and keep closely covered. Salt added during cooking preserves color. Baking without the addition of water is a good method in some cases but is not practical for most vegetables. To prevent strong flavors as in those of the cabbage family or onions, use a large amount of water in an uncovered vessel and boil for the shortest possible time for tenderness.

Variety in serving vegetables from day to day aids in appealing to the appetite.

VARIETY IN FEEDING STUFFS
Canadian live stock and poultry feeders have a wide range of commercial mixed feeds from which to

select their requirements. For the year ended September 30, 1934, there were 1,301 brands of mixed feed registered under the Feeding Stuffs Act administered by the Seed Branch of the Dominion Department of Agriculture.

Poultry feeds are much more numerous than feeds for other classes of stock and account for 885 brands, or nearly 72 per cent of the total. Dairy feeds follow with 129 brands, calf meals with 64, and hog feed with 43.

The increased production of high protein or protein and mineral mixtures to supplement and balance rations has been a notable development in recent years. A few years ago such preparations were rare, while in the year under review they amounted to 108 brands. This trend is in keeping with the teachings of scientific husbandry and recognizes the farmer's need to balance rations with the minimum cash outlay for purchased feeds.

In addition to these mixed feeds there were also registered some 278 brands of single feed materials such as tankage, meal, rape, farm grown powdered milk and buttermilk, gluten feed, hominy feed, brewers' and distillers' dried grains, etc.

DID YOU EVER STOP TO THINK?

The property of a community depends upon the extent of its commercial activity.

The streets should be made safe for pedestrians as well as for motorists.

Your local business concerns have a constant capacity to increase their volume of business by endeavoring to be honest, fair and courteous to all. You should trade with them.

About half the fun one gets on a vacation is reading the home town paper. Be sure to have yours sent to you wherever you may be.

A community spirit is no more than the Golden Rule.

You are expected to do your task in life today just a little better than you did it yesterday.

"Never has entertainment, so focused as in the home, been so popular. No one wants to leave home. I am sure that we are starting an era of new prosperity, based upon home enjoyment rather than upon the orgy of speculation which characterized our last business advance," says Howard E. Blood, president of Nippon Corporation.

If you want to save when shopping, read the advertising columns of this newspaper.

BLOOD PRESSURE

The very fact that we are alive is the best evidence of the remarkable capacity of the human body to adjust itself to changing conditions. Whether it be an adjustment to the difference between twenty degrees below zero and ninety degrees above, or the attack of disease germs or to the wear and tear of old age, to all of these the body if it is to continue to function, must adjust itself.

The circulation of blood is always under pressure, for that is what keeps it moving through the body. We know the average pressure for groups of persons who appear to be normal. The force of blood pressure is found by the use of a simple apparatus. A rubber sleeve which can be inflated is placed around the arm, this is then inflated and on a dial attached to the rubber sleeve is read the pressure required to shut off the circulation in the arteries underneath.

There are differences in blood pressure arising out of age, sex, height, weight, the position of the body, and recent physical activity. The average pressure of groups of apparently normal persons is not to be taken as a normal pressure. Within limits, good health is not endangered by variations from the average.

Blood pressure is maintained by the strength and frequency of the heart beat, the elasticity of the walls of the blood vessels, the quantity and quality of the blood itself.

When the blood pressure is found to be consistently above or below the

average, the only important question is: what has caused this change? High or low blood pressure is not a disease, but a sign of some change within the body. A blood pressure rate below the average frequently accompanies chronic disease.

An increase in pressure is commonly associated with such conditions as over-eating, which means overweight. Increased blood pressure is a symptom of the tripling of failing function due to age, seen in degenerative changes in heart, kidneys and blood vessels. Long continued strain, worry, and lack of relaxation may be responsible.

It will be clear, therefore, how impossible it is to attempt treatment without knowing the cause in the particular person who is to be treated. If treatment is to be successful it must do away with or correct the underlying cause.

The periodic health examination includes a record of the blood pressure. In this way, changes are noted, attention is given to possible causes, and trouble is dealt with before harm is done.

THE BOOK

the first line of which reads, "The Holy Bible," and which contains Four Gospels

by BRUCE BARTON

"The Holy Bible"

THE NEW TESTAMENT

The first books of the New Testament "read in churches" with the Old Testament selections, were apostolic letters, notably those of Paul and including generally, though not invariably, the longer epistles of John, Peter and James. When the Gospels appeared they were immediately used in like fashion and at once assumed a place of priority, not because any one authority said so, but because they were so important and so interesting. For a good while there was no attempt to make complete collections. Few churches had all the New Testament books and many had older books, as the Epistle of Clement and the Shepherd of Hermas which were loved.

When discussion began as to which books ought to be read regularly, there was immediate agreement on the most important ones, the four gospels and the larger epistles. There was a good deal of doubt about Revelation and Second Peter, and the two short epistles of John, which were relatively unimportant, as was then acknowledged and is still evident. But gradually there came to be agreement, not by authority but by the test of general usage, and the translation, and later the printing of the Bible, finally fixed the list.

If any one asks whether we know absolutely that every book in the Old and New Testaments is holy as above all other books, the answer is: We do not. No one can say that Jesus, which is in the Bible, is nobler than Ecclesiastes, which has been dropped out; certainly it is not so religious or so sweet in its spirit. No one can say that the Epistle of Jude is more inspired than the Epistle of Clement. The mountain range of the Bible shades off into foothills, and we do not know just where the range begins or ends. But the range is there, towering majestically above all other literature.

Scholars may discuss its measurements and limits, the theologically minded may battle over its "inspiration." Let them argue. What the world needs is more folk to read.

We come now to the second question. How were these chosen books preserved through the ages and passed down to us?

Until the invention of printing, which was desired mainly that the Bible might be published, copies were made by hand, and errors inevitably came in, no matter how scrupulous the copyists' care. Hence in making translations it became desirable to have as many of them for comparison as possible. The earliest manuscript copies that have survived to our time date from the fourth century A.D., and the story of one of them, the Sinaitic, will illustrate the vicissitudes through which they have passed.

MATTERS
POLITICAL

In exactly twenty-three more days following the lines of the usual law of averages in such matters, the decision will have been made by the electorate as to whom shall occupy the nice red-leather seat in the provincial parliament from whence matters political pertaining to the Wainwright constituency will be directed.

This particular seat may be placed in one of several positions in the legislative chamber, inasmuch as no less than four nominees of as many parties are at present in the field for the honors—Mr. Peter Milne, of Edgerton, representing those of Liberal persuasion, Mr. W. Mason, of Irma, who has been appointed as the standard bearer of the Social Credit group, Mr. Robert Smallwood, of Irma, as the choice of the Conservatives, and Dr. H. L. Courseur, of Wainwright, who stands to further the interests of the U.F.A.-C.C.F. policies.

To allow any misunderstanding which might arise during the campaign it is hereby fully and flatly declared by "The Wainwright Star" that both its news and advertising columns are open for use by every party and candidate without prejudice of favoritism for the presentation of party claims and doctrines and that the well-known political ideas of The Star owner-editor will in no way affect the use of its pages by any candidate if he so desires.

The Star may editorially express its own opinions, and it only remains for the candidates to express theirs.

GETTING
VALUE

The purchase power of newspaper advertising space might be compared to renting a building. In the average lease of desirable business property the owner provides a building of certain demonstrated value at a specified price but does not guarantee that the tenant will sell a certain amount of merchandise. The more undesirable the property, the greater the concessions offered to oc-

tain a tenant. The greater the sales productivity of the location, the fewer concessions. The parallel with the purchase of advertising space is obvious.

"A building that is clean, complete and modern is worth more per foot, just as a modern and complete and modern is worth more per line. The value of a location is enhanced if the neighboring advertisements are honest and reliable. Neighboring buildings that are cheap or gaudy in appearance detract from the value of the rental space and a dignified, quality atmosphere increases its value. Neighboring advertisements that are cheap and gaudy in appearance detract from the value of the advertising space and a dignified, quality atmosphere increases its value.

"Rental value depends upon the number of buyers, rather than the number of people who pass the location and the purchasing habits and capacity of those buyers. The value of advertising space depends upon the number of buyers, rather than the number of people who read the newspaper and the purchasing habits and capacity of those buyers."

THAT MONTHLY
DIVIDEND

"Consistency, thou art a jewel!" but the following editorial published in a recent issue of the "Lethbridge Herald" points out that the speeches of the leader of the Social Credit Movement have little of this quality to commend them:

William Aberhart, leader and exponent of the Aberhart Social Credit system to be applied to Alberta, should the ballots at the polls decide, in his latest publication—"The Social Credit Manual"—has propounded a series of questions to which he has endeavored to supply the answers.

One of the questions asked by Mr. Aberhart is a query at any time, but he seems to have the happy knack of denying what he is said to have stated, leaving him open to the accusation that he does not know what he is talking about when he speaks of the virtues and potentialities of Social Credit. In fact, on occasions, it leaves him in the position of a mother bird disowning its offspring, only, as different from the mother bird, Mr. Aberhart has not the excuse of a cuckoo laying an egg in his nest.

Though when it comes to the spoken word there is always the gate left open in the customary excuse of being misinterpreted, this excuse is lost when it comes to the written word, and though Mr. Aberhart may seek refuge in denial there is the written word staring him in the face. On page 47 of the "Social Credit Manual" is the following question: No. 23 "What would you do if a person did not wish to join with the Social Credit idea?" Answer (Mr. Aberhart): "In the first place he would not receive any monthly dividends." This leaves the undoubted conclusion that only the elect will receive the monthly dividend should Social Credit come into being.

Using Mr. Aberhart's own statement in the Manual of Social Credit, F. C. Jamieson, K.C., a provincial Conservative candidate in Edmonton, charged Mr. Aberhart with proposing to use the public credit of the province to pay basic dividends only to those who joined his party. According to a Calgary report, Mr. Aberhart said he never made such a statement. What are we to make of this? What other interpretation is to be conveyed from the words "In the first place he would not receive any monthly dividends." It is true that other words follow those of Mr. Aberhart's answer, but they make the situation worse still for those who do not believe in Social Credit. These words are: "It would be impossible, in the second place, for him to evade the Price Control statute. In the third place, he would have to be taxed just in the same way that he is taxed under the present system which he wishes to maintain." The injustice is patent in it being said that a man would have to be taxed and yet not receive what is supposed to be the benefit of Social Credit, the basic dividend. Judging Mr. Aberhart from his own

mouth, it might well be asked: "Is there any reliability or consistency in Social Credit as expounded by Aberhart?"

In The Mail Bag

We are not responsible for opinions expressed by our correspondents.

The Editor,

Dear Sir—I have been much interested in articles on war which have appeared in the papers and wonder if we parents are not making a great mistake in giving this subject little or no serious thought.

Lieutenant Colonel George A. Drew in his pamphlet, "Salemen of Death says: 'There is good reason to recall the sensation which developed in 1929 when Dr. Wm. Shearer said the three largest American ship building corporations, the Bethlehem Shipbuilding Corporation, the Newport News Shipbuilding and Drydock Company and the American Brown-Bowles Corporation, for 1929, 1930 and 1931, had been paid \$1,230 for sewing seeds of hatred and distrust in the minds of the delegates from the United States and Great Britain and that he claimed a further \$255,555 as the reward to a good and faithful servant whose labors had helped to reap the harvest of huge orders for battleships which had been imperiled by the possible success of the conference.'

Here was a man unflinchingly admitting that he had donned the mantle of patriotism so that he might better traffic in hatred and distrust; as a paid hireling of those great corporations whose aspirations were not in harmony with the hopes of an anxious world, which remembered the appalling cost of the last war and dreaded the possibility of the next.

While there is no doubt that the immediate cause of the Great War was the aggressive doctrine of Germany, it is not too much to say that competition in armaments supplied the fuel that men like Von Bernhardi brought to a flame. Is there not even a possibility that Von Bernhardi belonged to the same school as Shearer?

In speaking of Canada entering "the Great War," Col. Drew says: "Canada has reason to regret its course. No nation ever went to war with less selfish purposes or fought with higher purpose, but let us not forget that the war was very largely the result of the tension which developed from the nervous strain of ever increasing military competition and that the murder at Sarajevo was not the cause but only the excuse employed to start a conflagration which had been smouldering for years."

I believe that most of us want our children to become good loyal citizens and to be brave enough to do their duty in life regardless of the cost to themselves or us, but we do not want them to sacrifice their lives needlessly to satisfy the greed of a few already rich men.

"THINKER"

NEW FARMING

Mr. Carl Ken, of Leduc, who has been experimenting with rye in Western Canada for 19 years, is desirous of passing on the information he has thus gained. He writes:

The Editor:
Dear Sir—I now have it all clear when the rye should be seeded. I have a field of rye on my farm that is open for inspection for the next three weeks, and also the wheat grown on last year's rye, and rye that is seeded for next year in a field of wheat. Anybody can come down

and see it for himself before three weeks is over as the rye will be cut by then.

"It can be seen how it cleans the land of all noxious weeds, how it will prevent grasshoppers and drifting soil, and anyone can see the wheat field where there was rye last year. I have the best wheat in Leduc district and it is not on summer fallow, but on rye land."

"I have rye seeded for next year in the field of the province, and I have seen it in doing so and it is the wheat that is growing now. Rye, I believe, is the only grain that will not be choked out in a field of wheat no matter how heavy it is."

"If anybody wants to come and see it in the next two or three weeks he will see how I work the land. I would like to see all farmers take advantage of my experience which has cost me a lot of trouble and time."

"If the farmers in the southern part of the province would start in with rye and seed it at the right time, they would soon be off relief."

"I would like to have this published in the southern part where they have so many crop failures, as rye will bring back the land as it was when it was newly broken prairie. I would like to go down myself to some southern part and show the farmers how it can be done, if I dispose of my farm this fall."

LOCAL NOTES

Cards have been received from Mr. Chas. Hutchinson, who is making an auto tour of the western States. He wrote us from San Francisco, and is apparently having a real good time.

We are glad to note that Mr. E. L. B. McLeod, who was so seriously ill recently, is progressing most favorably while recuperating at the coast.

Among the gatherings which Mr. M. L. Forster will address in the Liberal interests during this week will be those at Paradise Valley, Kiltoski, Auburn and Plaxton.

Dr. G. Maynes was a business visitor to the city for a couple of days last week end.

We are informed that Dr. H. Courseur has been holding well-attended meetings at several points in the interests of his C.C.F. candidacy in the forthcoming elections.

Only slight damage was done to the Good Standard when it was maliciously run into the ditch by some unknown on Wednesday night last.

With the hot weather of the past week, despite the couple of bad storms experienced, the farmers are now busy with their season's haying activities. And the crop promises to be good, too.

Mrs. E. Lee and the children are away to spend a camping spell at King's park by the river at Fabyan.

Rev. Father Geo. Lemaire, a former townsmen a old-timer is visiting friends in town for a few days holiday.

Dr. H. and Mrs. Wallace, accompanied by their two sons left this morning (Wednesday) for a motor trip to visit relatives in the Regina district for a few days.

Heavens to Betsy! Mr. M. L. Forster actually found a real live potato bug in his garden one morning last week. A pest which this district can sure do without!

The furniture and furnishings of the Mr. and Mrs. A. Hughes home left town by truck yesterday en route to their new home at Standard Alta.

Mr. Harvey Ward, of the C.N. roundhouse staff, has been transferred to the shops at Port Mann, Vancouver. Mrs. Ward and the baby will join him shortly.

Too many people have dreamed brains.

CROP FAVORABLE, THOUGH BACKWARD

The crop report by the Bank of Montreal says that while crops generally in the Prairie Provinces are making rapid growth, the outlook is less favorable than it was a week ago owing to the possibility of extensive damage from rust in Manitoba, and some sections of Saskatchewan. Rains would be welcome over large areas of Saskatchewan and Southern Alberta, but otherwise moisture conditions are satisfactory. In Quebec crops as a whole present a good appearance and the outlook is considered satisfactory. In Ontario the warm weather of the past week has been beneficial and crops generally have been making good progress. In the Maritime Provinces all crops are doing well. In British Columbia the

IN OUR LIBRARY

"A NOTE IN MUSIC" by Rosamond Lehmann

Here at last is the long expected and eagerly awaited successor to "Dusty Answer", the book which was hailed as "the most striking first novel of this generation." The scene this time is an industrial town in the north of England; the principal characters, two married couples, respectable, middle-aged, and provincial. The town is visited by two very modern, young people, Hugh and Clare. They mean no harm, but

prevailing hot weather has helped the crops and in most districts moisture conditions are satisfactory.

Crops generally have been improved by recent warm weather and conditions as a whole continue favorable, although backward. In central and northern particularly all wheat is in head as also are some coarse grains. In southern areas non-irrigated crops are poor and ranges are drying up. Sugar beets are making good progress.

Saskatchewan
Wheat is heading rapidly and except in western sections where drought has caused irreparable damage, a fair to heavy stand is indicated. Coarse grains show satisfactory progress. Rust is prevalent in Southern and Eastern areas and crops have suffered from hail and grasshoppers in some sections.

Manitoba
Rust infection has spread extensively in central and southern areas and serious damage to the wheat crop is feared. Coarse grains condition promising, although barley and oat crops show signs of rust in some sections. Moisture is ample.

MUSICAL REVUE AT ELITE SATURDAY ONLY

On Saturday next ONLY this week the Universal musical revue "Gift of Gab" will bring to the Elite a full list of screen and radio stars.

It is entertainment of a high order, and has a surprising completeness in its motivating story which covers drama, comedy, music, topical spectacle and romance; and with all its presentation is entirely novel.

Gabgy Gabgy talks himself into the job of announcer on a nationwide radio hour. The world tunes in on his programs, and there are presentations of Phil Baker in burlesque comedy skits, Gene Austin in songs, the Downey Sisters, Gus Arnheim, Ruth Etting, Ethel Waters, the Beale Street Boys in visible performances.

Later Gabgy goes to the dogs. In the interim Universal players enact a burlesque murder mystery.

Then a transport plane cracks up in the mountains and Patry and the Colonel put him aboard a plane to fly over the site of the disaster. Unable to get close enough, Gabgy bales out and gives the world its first parachute description of a sensational news event.

The stunt restores him to grace. The finale is another revue of all the talent that has appeared previously.

BONERS

Mutiny is the way the soup tastes when mother has been cooking lamb.

A pentent is a cheap kind of cover made of canvas.

To fail means to not be a success. Anored is when a person is feeling mad.

Sordid is when things have been put into separate piles.

Fowl means dirty or not smelling good.

Fuel is what we do when we act crazy.

Thy is the upper part of your leg.

The DIVORCE COURT MURDER

by MILTON PROPPER

© HARPER & BROTHERS, 1934

SYNOPSIS—Six persons are in an inner office of the law firm of Dawson, McQuire and Locke at Philadelphia. A master hearing in the divorce case of Rowland vs. Rowland is under way. Mrs. Rowland, represented by her lawyer brother, Mr. Willard; Mr. Rowland, the defendant, and his attorney, Mr. Trumbull; the court clerk and Mr. Dawson, the master, are the six persons. There is a new development in the case. After failing to defend himself against the charge of adultery in earlier happenings, Mr. Rowland digs up evidence and asks the court's permission to produce witnesses and resist the writ. Judge Dawson overrules the heated objections of Mr. Willard, and orders Mr. Trumbull to bring in the first witness. Mr. Trumbull has just gone to an outer office to get the witness but finds her dead—chloroformed. She is Mrs. Barbara Keith, wife of a prominent Philadelphia business man. Judge Dawson phoned for the police. Detective Tommy Rankin is assigned to the case. He is now outside all of the parties involved in the case. NOW GO ON WITH THE STORY.

According to the court reporter's

record, that was all he said—namely—that at 11:30, a stranger, who Mr. Willard Keith, husband of the murdered woman, appeared unexpectedly from the hall, looked about as though puzzled, and then left quickly without a word.

Of Rankin, now, the incident was of utmost significance. Months before it could even have been con-

"These gloves were stuffed in the bottom of the waste basket," said Johnson.

tured that his murdered wife would be a leading witness to Mrs. Rowland's own infidelity. Mr. Keith had been present at the scene of Rowland's apprehension! What could his interest in that intrigue possibly have been? How was he apprised of the rendezvous at the Inn, and what he expected to find there?

Instinctively, Rankin perceived that an immediate answer to these questions was essential to the solution of the crime. Going to the office door, he called Jenks to summon Miss Edmond.

When the secretary appeared, he motioned her to a seat and returned to the lawyer's swivel chair. "Sit down, Miss Edmond," he said brusquely. "You know, of course, that I have charge of the investigation of this crime. I am questioning everyone connected with the divorce hearing. You are the correspondent, I believe; I suppose that you recall all that happened the night of Wednesday, February 1st, at the Sunset Inn."

Perfectly composed, the girl smiled quietly. "Yes, quite clearly," she admitted freely. "I could hardly forget it as I was unfortunately involved."

"You've also been told," the detective pursued, "that the dead woman is Mrs. Keith—Mrs. Mortimer Keith. Are you acquainted with her or her husband?"

"That I have been told," the detective pursued, "that the dead woman is Mrs. Keith—Mrs. Mortimer Keith. Are you acquainted with her or her husband?"

"That I have been told," the detective pursued, "that the dead woman is Mrs. Keith—Mrs. Mortimer Keith. Are you acquainted with her or her husband?"

"That I have been told," the detective pursued, "that the dead woman is Mrs. Keith—Mrs. Mortimer Keith. Are you acquainted with her or her husband?"

on the table, the desk and the bookcase. All I need now is to find out who owns them."

"Well, I've had the entire staff detained," Rankin returned, "so you can take their prints. And practically every visitor who entered fifteen-o-five is here too. Get Jenks to help you with that." He paused. How about marks on the doors and windows, Johnson? Did any come there?"

The expert shook his head. "Nothing doing, I'm sorry to say. I examined the sills and knobs thoroughly but they were as clean as a whistle."

"And the chloroform bottle?" "Were there any prints on that?"

Again Johnson shook his head and the detective pursed his lips in disappointment.

The expert raised his hand and smiled quizzically. "One moment, Tommy, not so fast. Have you searched the office that held the body at all?"

"No, I haven't had time," Rankin replied.

"I made a pretty complete canvass of the place while collecting my prints; and I located something. I suppose you and I must have been stuffed away down in the bottom of the wastebasket under the desk out of sight."

Johnson produced a pair of yellow soiled gloves, of expensive quality. Turning back the cuff, the expert disclosed the label of an exclusive haberdashery on Chestnut Street. They were clean and little worn, and he eagerly noted the size, 7 1/2.

The expert started to leave. "All right, Tommy, I'll do the best I can," he promised. "I'll rather expect you to be interested in my find."

Now he returned to Mr. Dawson's office, switched on the central light and summoned Allen Rowland.

He motioned the young man to a chair. "Now I'm ready to discuss more important matters with you," he said, "primarily about your evidence of your wife's infidelity with Campbell."

Rowland made himself comfortable, lit a cigarette and offered Rankin one.

"My lawyer doesn't know anything about it personally," he returned easily. "Only what Mrs. Keith and I were lucky enough to discover two weeks ago; we both went to him and gave him the details."

"Well, exactly what was this occurrence that gave you the chance to defend?"

"And how did Mr. Keith happen to be a witness to it?"

"Only accidentally," Rankin said, "some one to bring out my story. I was fortunately in a position to help me."

Rowland plunged into his account. "But long before my affair with Miss Edmond, my wife and I disagreed because of her friendships with other men. I knew she had many admirers; but I had no reason to believe she was misbehaving with any of them. After she brought suit, however, I moved into my own apartment and began to watch her closely. What was sauce for the goose, I decided, was sauce for the gander, and I hoped in the end to get evidence that she was being unfaithful. I was my own detective. First, I paid her chauffeur, Donald Smith, to keep my posted as to when she went out in the evening, both when he drove her himself, and when she dismissed him, because someone else was taking her. On those nights for the last two months, I waited outside my estate in my car. When she had her visitor left, I would follow her all over town to parties, dinners and dinners. And Hugh Campbell was her most frequent companion."

"How long has he been acquainted with your wife?" Rankin asked. "Where did they meet?"

"At Saratoga last summer. Adele bet on the races regularly, and Campbell had a couple of horses entered on which she placed bets. They won, and afterward mutual acquaintances introduced them; that was the beginning. They last winter, we were at Palm Beach where he had taken a villa; she attended his parties and they saw much of each other at the casino and on the beach. He visited Philadelphia fairly regularly and has been a guest at the Willard home."

"Was the divorce entirely Mrs. Rowland's wish? You proposed it and would have done in your present life?"

The young man spread his hands to emphasize his reply. "Certainly I opposed it," he declared vehemently. "I had everything to lose by it."

The income Adele settled on me, plenty of leisure, and social position. And I was trustee of my wife's first husband's estate; that was most important. For that, I was anxious to stay married as Mr. Willard was to force us apart."

Rankin held a not of fresh interest. "Mr. Willard? How did it affect him? Had he a personal concern in the divorce besides his professional desire to win the case?"

"He benefited by it decidedly," Rowland gave a short, scornful laugh. "The minute Adele was single, the executorship of Tom Marshall's estate, and with it the power to manage its income, reverted to him. But as long as the marriage lasted, it had charge. It was all part of Marshall's clever arrangement to

Hints for the Household

Conducted By Betty Barclay

DAINTIES MADE NOW WILL BE WELCOME IN WINTER

During the jolly-making and preserving season your bottle of fruit peetin is used regularly with fruits and berries. Remember that it lends itself to use in delicious vegetable relishes as well. Here are two that should be upon the shelves of every preserve closet.

Tomato Relish

3 cups (1 1/2 lbs.) prepared tomatoes
6% cups (2 1/2 lbs.) sugar
1 bottle fruit peetin

To prepare tomato relish, peel and crush about 2 1/2 pounds ripe tomatoes, or use canned tomatoes. Boil 4 cups crushed tomatoes 10 minutes, uncovered, stirring occasionally. Add 1/4 cup lemon juice and grated rind of 1 lemon. (For use with meats, add 1/2 teaspoon ground cloves; for all spices and cinnamon, or Worcester-shire to taste.) Measure sugar into large kettle. Add prepared tomato, filling up last cup with water if necessary. Mix well and bring to a rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 2 minutes. Remove from fire and stir in bottled fruit peetin. Skim; pour quickly. Paraffin at once. Makes about 9 glasses (6 fluid ounces each).

Pepper Relish

2 cups (3 lbs.) prepared peppers
7 cups (3 lbs.) sugar
1 1/2 cups apple vinegar
1 bottle fruit peetin

To prepare peppers, cut open about 1 dozen medium peppers and discard seeds. For best color, use equal amounts green and red sweet peppers. Put through food chopper twice, using finest knife. Drain pulp in sieve.

Measure sugar, vinegar, and prepared peppers into large kettle, packing each cup solidly until juice comes to top. Mix well and bring to a rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 2 minutes. Remove from fire and stir in bottled fruit peetin. Then stir and skim by turns for just 5 minutes to cool slightly to prevent floating fruit. Pour quickly. Paraffin hot relish at once. Makes about 10 glasses (6 fluid ounces each).

A REAL CHICKEN DISH

One housewife's problem is turning scraps of chicken into a dish that won't proclaim itself as a "left over." One of the solutions of that

make it difficult for Adele to marry a second time.

"Difficult?" The detective frowned at the perplexity. "You'll have to explain, Mr. Rowland. How did he expect to accomplish such a purpose?"

The other shrugged. "Quite simply, through his will Rankin. You see, Tom Marshall was a smart man and understood his wife as well as I do. And a jealous husband. It seemed inevitable that at his death she would marry again and he intended to forestall that. So in his will, he fixed it that whoever she married next would be independent of her. In fact he would actually manage her financial affairs and, through them, her, at least with regard to his property."

"Exactly what did the terms of the will provide?" Rankin inquired.

"In the first place, he made her brother executor of his estate as long as Adele remained single after his death," Rowland elaborated. "He was to direct all investments for both their benefits and turn over to her at least seventy per cent of the annual income. Or, if she married again and was then divorced, the control reverted to him. Naturally it was to Willard's advantage to keep her a widow, and if she should marry, induce her to separate."

(Continued next week)

difficulty is this recipe for Molded Chicken Loaf. Far from being a make-shift, this chicken loaf is a delicious dish in its own right.

Molded Chicken Loaf

1 package lemon-flavored gelatin
1 pint warm chicken stock, free from fat
1 cup dried cooked chicken
1/2 cup chopped celery
1/4 cup chopped green pepper
2 tablespoons chopped pimiento
1/4 teaspoon salt
2 tablespoons vinegar
1/4 cup stuffed olives (chopped)
1 teaspoon scraped onion
Dash of cayenne
Dash of Worcestershire sauce

Dissolve gelatin in warm stock. Chill until slightly thickened. Combine remaining ingredients and fold at once into slightly thickened gelatin. Turn into loaf pan. Chill until firm. Unmold on crisp watercress. Serve in slices. Or mold in ring mold and serve as salad garnished with mayonnaise. Serves six.

HOME MADE ICE CREAM FOR DAYS THAT ARE HOT

What tastes better than a dish of home made ice cream such as grandmother used to make? How about the same delicacy, made in a modern way? Try this recipe and you will be able to answer the last question to your entire satisfaction.

Fresh Strawberry Ice Cream
1 junket tablet
1 tablespoon cold water
1 pint milk
2 cups strawberry puree
2 tablespoons lemon juice
3 cup sugar
1/4 pint cream

Dissolve junket tablet in tablespoon cold water. Warm sugar and

cream until lukewarm—NOT BOIL. Remove from stove. Add dissolved junket tablet. Stir a few seconds, and pour immediately into freezer can. Let set at room temperature until firm and cool. Pack in ice and salt, and freeze to a mush. Add strawberry puree and lemon juice. (Prepare puree by crushing about one quart of strawberries and rubbing through sieve—adding sugar if necessary.) Finish freezing. Recipe makes 10 to 12 servings.

BEVERAGES FOR PICNICS
See that the children have something healthful to drink when they start away for a picnic. Without a suitable beverage they may drink water that is none too pure. Here are a couple of picnic beverages that may be made up at home, bottled, taken to a picnic, and the bottles placed in cool water or damp earth until the contents are needed.

Strawberry Sherbet
Select sound fruit, wash, measure, and place in a stone jar. For every four quarts of berries use one quart of vinegar. Cover the jar by tying a cheesecloth over it. Stir the berries daily for three or four days. Strain without squeezing and put in a kettle, allowing one pound of sugar to each pint of liquid. Boil slowly for five minutes, bottle, cork and seal. Dilute with cold water for serving. For picnic use, fill quart bottles with diluted strawberry shrub, cork tightly and pack in hamper.

Much praise has been accorded Lovelock for his fine sportsmanship in taking the medal. He was in such excellent form that he could have won by a much longer lead—but was happy simply to win.

Sheet SHOOTING

5. GUNS AND AMMUNITION

THE gun for Sheet is the gun habitually used by the shooter in upland shooting; in other words, the one that fits him. A good Sheet gun is substantially a good one for game birds as well.

Certainly, there is no necessity to spend hard-earned dollars on a new special gun. If you are starting the game for the first time, and if you have never shot before, and therefore have to buy a gun, pay strict attention to fit, bore, weight, and balance. Most important of all is to see that your gun fits. Here it is as well to get the advice of some old hand at the game, and also to gain practical experience for yourself by shooting borrowed guns for a while until the right one for you is obvious.

The sight of the gun-rack at a Sheet Club would be an eye-opener to the old, prejudiced pre-shooter. Double-barreled, single-barreled, under and over, pumpguns, automatics, all line up together, cheek by jowl. And all the way from 12 gauge

down past the 16s and the 20s to the 28s and the beautiful little .410 gauges, whatever the shooter wants or prefers. In rare instances only is the pump a good gun for the beginner at Sheet, unless he is a wizard at it.

Sheet shooters use anything from trap loads of 7 1/2 shot to 10 shot with good results. The best ammunition is the regulation Sheet load of number 9 double chilled, put up by the manufacturers for this purpose. The use of this load is becoming universal. There is nothing better to give the required density for clean breaks in all gauges and in open guns.

Remember, a good fitting outfit or shooting jacket is necessary for a while that does not bug under the arms. Many Sheet shots are faster than real birds, and no one should handicap himself with a badly fitting garment. Guns have to come up quickly, and a little surplus ridge of cloth or buckskin may just throw enough snag in the way to cause you to miss that spinning target.

This is No. 5 of a series of 12 articles on Sheet Shooting. Cut it out. When all have been clipped, you will have a complete write-up of this sportsman's sport which is rapidly becoming the vogue across Canada.

When You Can't Go, SEND When You Can't Send, WRITE!

You may agree that when you have something important to say to another the best way to get the idea to him is to take it in person. The next best method would be to send someone whom you could trust to get the thought across with friendly dignity. That being impracticable you would write.

The columns of The Star give you a friendly, dignified means of conveying your written messages.

We spare no pains or reasonable expense to produce an interesting paper. We aim to make it easy for the reader to relax into a happy, thoughtful, receptive mood.

Should a reader in this mental attitude be in need of a new suit, dress, furniture, etc., and should be attracted to an interesting message from you week after week he or she would be more than likely to think of your place of business when starting out to purchase the desired article.

It is not practical for you to personally call upon the majority of the people in the trading area of Wainwright. It would be rather expensive for you to send a personal representative. Why not permit the columns of The Star to be your message bearer at regular intervals to "tell the people what you've got, why you can serve them, what it will cost and ask for their trade?"

The constant dripping of water will wear away a rock's resistance? The constant use of advertising will make the most adamant public yield you adequate returns on your investment.

Drop in today or give us a ring and let us explain our attractive offer for long term service.

This Week in Washington

How far will the House of Representatives go in its revolt against the President? That is, by all odds, the most widely-discussed question in Washington these days. The lower House of Congress, having overwhelmingly voted down one of the President's "must" orders, the "death sentence" clause in the Utilities Holding Company bill, is feeling its oats. It may take the bit in the teeth and run wild.

The boys have been taken orders without open protest, though with a good deal of grumbling, for the sake, mainly, of party harmony and their own chances of re-election. Now they are beginning to wonder whether it is good politics to keep on as they have been going. A lot of them, particularly from the South, are getting word from back home that the folks are getting tired of having new projects sprung on them and wish Washington would slow down for a while.

There was pretty general resentment in Congress of the President's effort to have his new "share the wealth" tax program rushed through on five days' notice, and that resentment was not materially cooled by his concession that they might take all summer to consider it. Congress may or may not work out a new tax bill that will meet the President's views. Talk of adjourning and letting committees study the tax matter, for report and action at the next session, is heard on many sides. What is more likely is that the boys will stay here until Fall and maybe try to put over some things which the President does not want.

It is more than likely that, instead of a bill to tax only huge incomes, enormous estates and wealthy corporations, such as President Roosevelt asked for, Congress may give him a general revision of income and inheritance tax laws, running all the way down the scale. Also, a few greenback, silver and bonus bills for good measure.

Lobby Investigation

Another thing that has got the boys on Capitol Hill all stirred up is the open charge that the Administration sought to buy votes for the "death sentence" measure, by promise of patronage and threats of withholding work-relief funds. Representative Ralph Brewster (R.) of Maine made the flat statement that one of the "brain trusters" who drew up the Holding Company bill, Thomas G. Corcoran of the R.F.C. staff, had warned him that if he voted "wrong" the funds for the Passamaquoddy power project would be held up. The result is a Congressional investigation of lobbying by both outsiders and insiders. The President's latest bombshell is his letter to Representative Sam R. Hill, of Washington, urging Congress to disregard the Constitution in considering the Guffey Bituminous Coal Miners' Regulation bill. Mr. Hill is chairman of the sub-committee having the bill in charge. Mr. Roosevelt wrote:

"I hope your committee will not permit doubts as to a constitutional, however reasonable, to block the suggested legislation. The President explained in his letter that the only way to find out whether coal-mining was subject to Federal regulation, was to try to regulate it and so bring the question to the Supreme Court. 'A decision by the Supreme Court relative to

this measure would be helpful," he said, "as indicating, with increasing clarity, the constitutional limits within which this government must operate."

The Constitution Issue

Now the boys are asking each other whether that would be good politics—for them individually and for the Democratic Party. The Opposition would like nothing better than to fight on the battleground of the Constitution. Indeed, it becomes more nearly a certainty, from week to week, that the question of Constitutional amendment to permit the Federal Government to do a lot of things this Administration has been trying to do, but which the Constitution, as interpreted by the Supreme Court, says it has no power to do, will be a major issue between the two parties next year.

Some of the President's closest friends are wishing that his wise old political strategist, Col. Louis A. Henry Howe, were not disabled. Nobody else has the complete confidence of Mr. Roosevelt, from nobody else does he recognize political advice as uncolored by personal ambition.

INFIDEL CHALLENGES CHRISTIANS

An infidel once gave the following testimony:

"Did I firmly believe, as millions say they do, that the knowledge and practice of religion in this life influences destiny in another, religion would be to me everything. I would cast aside earthly enjoyments as dross; earthly cares as follies; and earthly thoughts and feelings as vanity. Religion should be my first waking thought, and my last image before sleep sank me into unconsciousness. I should labor in its cause alone. I would take thought for the morrow of eternity alone. I would esteem one soul gained for Heaven worth a life of suffering. Earthly consequence should never stay my hand nor seal my lips. Earth, its joys and its griefs, would occupy no moment of my thoughts. I would strive to lose my eternity alone, and on the immortal souls around me, soon to be everlastingly miserable or everlastingly happy. I would go forth to the world and preach to it 'in season and out of season,' and my text would be—'What shall it profit a man if he shall gain the whole world and lose his own soul?'"

Every saved person knows the truthfulness of the infidel's statement. We know that there is a hell; the inspired Word of God tells us so. We know that mankind is destined to spend eternity in one of the two places: those who accept Jesus Christ are saved, and those who reject Him are lost. Therefore, the supreme duty of every born-again believer is to live and work for God; to be a soul-winner, so as "by all means to save some."

THE VOICE

Not what these hands have done
Can save this guilty soul;
Not all this toiling flesh has borne
(Can make atonement whole)
Not what I feel or do
Can give me peace with God;
Not all my prayers and sighs and tears
Can bear my awful load.
Thy work alone, oh Christ,
Can ease this weight of sin;
Thy blood alone, oh Lamb of God,
Can give me peace within.
MRS. H. B. WALKER

MANY PEAKS AT

JASPER UNCLIMBED

For the lover of unspoiled mountain scenery it is doubtful if any spot on the North American continent holds so much interest as does Jasper National Park, in the heart of the Canadian Rockies. This site, 4,200 square miles in extent, has been set aside by Canada as a perpetual playground and in the heart of the park the Canadian National Railways operate Jasper Park Lodge, a bungalow hotel with modern comforts and conveniences. It features a heated swimming pool, tennis courts and magnificent scenic golf course.

From the lodge radiate saddle and hiking trails leading to awesome canyons and to age-old ice fields. Motor roads circulate through certain sections of the park, rising by means of hairpin turns to the feet of glaciers. Since this is a game sanctuary, deer, elk, mountain sheep and goats, bears and other animals have lost their fear of man and are heady camera subjects for the picture hunter. Within easy journey of the lodge are fishing lakes, including the famous Maligne waters, stocked with speckled trout, and the lakes of the Teton Valley whose glacial waters stocked with Rainbow trout are now open to the angler.

Many of the peaks in Jasper National Park are yet unclimbed and some are even without name, but there are peaks for every class of climber.

LIBERTY'S CANADIAN HALL OF FAME No. 12

Canada's first and only woman member of the House of Commons is Agnes Campbell Macphail, M.P. Elected from her farm home constituency at Gray Southeast, Ontario, in 1921, she is, to speak plainly, sprung from the soil. She scorns the embellishments of society, cooks her own breakfast, wears tailored dresses and has the most notable voice in Canadian Parliament.

A former school teacher, she set her face toward wider horizons and threw her forceful personality into a political campaign. With black hair, blue-gray penetrating eyes, her voice and \$900 for expenses she won her first campaign. A model T Ford transported her.

Newspapermen like her because her witty comments make good copy, not to mention her firm stands against war, armies, munitions manufacture, cadet training, slumping patriotism and big financiers.

Her pet aversion is lobbying. She considers it thoroughly incompatible with good government and would like to see some legislation that would reform existing penal situations, education, politics.

Not entirely an iconoclast she removes her hat when addressing the speaker and claims to be a Latter-Day Saint. Lives the simple life with her mother in a farmhouse at Cayton.

Danger !!

If you are planning a motor trip, have your tires checked over before you leave. Fast driving on hot roads produces internal heat in your tires and as a result blowouts and tire trouble develop. Look in any newspaper for the number of accidents from blowouts, and you will realize the danger of driving on worn-out tires and remember
FIRESTONE TIRES ARE GUM DIPPED
giving every fibre in every cord a gum-rubber insulation against internal friction. Thicker side walls, more tread, quiet-running and two extra cord plies under the tread at no extra cost.
We invite you to drive in and allow us to check you tires.

NEWS & VIEWS OF TOWN AND DISTRICT

BORN—To Mr. and Mrs. E. B. Swindhurst (nee Withnell) of Edmonton, at the Wainwright municipal hospital, on July 25th, a boy. (Robert Norwood).

BORN—To Mr. and Mrs. O. Hutchison, at the Wainwright municipal hospital, on July 28th, a girl.

BORN—To Mr. and Mrs. C. McLean, of Tolland, at the Wainwright municipal hospital, on July 29th, a boy.

Mr. Mel Hugst spent the week end with friends in town. Mr. W. Sidhill who has been camping for a couple of weeks at Clear lake, returned with him on Monday morning to their home at Hanna.

Mr. G. L. Hudson of Edmonton, spent a few days at the lakeside last week. Mrs. Hudson who accompanied George is staying on for a visit with Mrs. Telford and Mrs. Washburn at their cottages.

Mrs. H. Schlitt has been entertaining her niece, Miss McKinley, of Stony Plain, who has been visiting her for a few days.

Mr. and Mrs. D. W. Davison and Mr. and Mrs. A. Savers journeyed to Chauvin on Sunday to enjoy the balmy breezes at the Salt lake camp.

Miss Lila Emery, of Winnipeg, was in town last week, in the interests of the Princess Pat toilet preparations among the ladies of town and district.

Mrs. B. F. Beaubier and her two sons have returned from a pleasant stay with relatives at Swift Current.

The Editor joined the ranks of the "Bach" brigade last week, when his family hied them to the lakeside for a camping spell.

We are glad to know that the injury which Mrs. R. Snyder sustained when she stepped on a piece of glass in the lake recently is now relieved.

Mr. and Mrs. L. Mitchell and Mrs. Eva Turner are away to their camp at Clear lake for the hot weather at least.

The C.G.I.T. girls' camp has been closed and the young ladies are back home now after an enjoyable time by the water.

Mr. John White is now back on the job at the hospital, where Pete Poltras was deputizing for John during the holiday period.

Dr. and Mrs. Coursier are now in residence at their lake cottage for the season. They have as their guests the doctor's father and sister from Revelstoke and Vancouver respectively.

Mrs. T. Lissimore and her son Ruggie spent a short holiday at the lakeside during the past week.

Mrs. C. McBride and her daughter who were away on a visit to friends at Calgary, returned home last week end.

Miss Josephine Middlemaas, accompanied by her brother Chas. R., is away these days on a holiday visit to relatives in Montreal and the Eastern States.

Is your house too warm these days? If so, buy ten dollars worth of specially prepared shavings at the Atlas yard and place in your attic. They will keep the home cool in summer and warm in winter. Joe Welch phone 57.

COMING EVENTS

An interesting recorded lecture by Judge Rutherford together with an address by Mr. C. Roberts will be given in the Masonic Hall on Thursday, August 8th, at EIGHT P.M. Seats FREE. No collection.

RESTAURANT

Mr. Pat Murray and family are visiting Mrs. Murray's brother, Mr. S. Aykroyd at the farm north of town.

Miss Jennie Fisher, of Three Hills, was here on a short holiday with friends last week.

Mr. Calvin Urkhart, of Irma was a patient at the hospital recovering from a narrow drowning accident. While swimming in a small lake near his home he was seized with cramps. Dr. Richardson at Viking was fortunately able to rescue the victim from the water and apply first aid.

Mr. W. A. Prosser is paying a visit to his father in Ontario for a short holiday trip.

Mr. Jack Stinet accompanied by his two eldest daughters is away on a trip to Seattle to visit friends there.

Quite a novel idea for a fence is the fine accomplishment of Mr. A. Dupre, who has achieved quite a fancy result with a great number of various colored oil cans. Quite a stunt, Arthur.

Don't neglect your fire insurance; it is better to carry it for 50 years and never need it, than to want it five minutes and not have any coverage. Joe Welch specializes in insurance. Phone 57.

Mr. and Mrs. Coderre motored to the city for a few days last week end, accompanied by Mrs. F. Messier.

Rev. T. E. Armstrong, with his family left this week for a motor trip to Banff and other vacation spots on their annual holiday.

We are sorry to learn that Mrs. F. Lepper has been on the sick list for the past few days.

Mr. and Mrs. Stafford drove down from Viking to spend Sunday with their parents here. Carl now has charge of the lumber yard in that town.

Mr. Walsh, of the Gold Standard Oil staff is spending a week in Calgary accompanied by Mrs. Walsh.

Miss Violet Taylor, who has been spending her holidays with friends in Edmonton, returned home on Saturday last.

Both the Plaxtol S.D. and the Batteview S.D. are calling for tenders for work on their Schoolhouses. The advts. appear on page four of this issue.

Mr. and Mrs. H. Ward, jr., who have been enjoying their annual vacation at the coast returned home on Sunday's train.

Mr. and Mrs. McBride were among the visitors to the Telford camp at Clear lake on Sunday.

Mr. and Mrs. Frank Morris, who have been away on holidays have now returned home.

Mr. J. S. Turner, of Edmonton, was in town this week in the interests of the E.C.D. of that city.

Mr. and Mrs. J. A. Mackenzie are planning to spend a short holiday at Salt lake, at Chauvin. They will leave at the end of the week.

During the electric storm of Saturday night last, the Wainwright district was very fortunate that no hail fell here of any account. Adjacent places which felt the severity of the storm and suffered considerable therefrom were Loughheed, Killam, Camrose, Wetaskiwin, Lamont, etc.

Mr. John Hedlund is away to Turner Valley oilfield, where he is on a "tear down" job. Following this he will commence on the rebuilding at Lethbridge. Art Newburn has charge of the crew.

Miss F. Murray of the Ideal beauty parlor was a business visitor to the city over the week end. We learn she is preparing to install one of the very latest machines for permanent waving and other specialty hair work.

There is just time for four more to read "Green Light" and "Father Abraham". Ex-members of the library please call for deposits.

Mrs. Helen Aykroyd spent a few days here from the city on a short visit to her son Sam on the farm.

The Atlas yard have distributed a carload of lime, plaster and rock board to their yards in the surrounding territory during the week. Let us have your orders for building supplies NOW. Joe Welch.

Mr. Dave Horne left on Monday morning for Redway Center, Alta., where he will join the staff of the St. Joseph's hospital there.

Mr. T. W. Lane and family having enjoyed their annual vacation are now back again.

Quite a nice crowd was present at the Lotan sale in town on Saturday last, when Bill Stuart wielded the hammer.

Welcome friends to a large number in town arrived on Monday evening when Rev. R. and Mrs. Coulter motored up from their home at Rimbey, Alta. They are guests of Mrs. W. A. Knowles during their stay in town. Mrs. Coulter will be remembered as former Superintendent Huxley of the hospital staff.

The admission to the fair grounds has been set at adults 50c; high school students 25c; public school children and vehicles will be admitted free.

Miss L. Page, supt. of the hospital accompanied by Miss O. Wheeler of the nursing staff, leave today for their annual holidays. They plan to enjoy an extended motor tour down through the central and western states.

Mrs. R. G. Dunsmore, who was away on a visit to her sister in Calgary, is now having a holiday with friends in Edmonton, and, of course, Bob is still on the "summer bach" list!

Get your membership ticket for the Agricultural Society from Secretary Bill Stuart. These membership tickets entitle you to free admission at the fair next week—Friday and Saturday.

Bill Stuart shipped a couple of carloads of fine stock to the Edmonton markets on Monday.

The Perfect Tonic

All the real pep and strength your boy or girl needs to get the most out of beautiful summer sports is in your bottle of O.K. Dairy Milk. See that they have a glass at every meal and between playtime periods.
